WORK/PROJECT EXPERIENCE

Qixalite   **August 2021 – Present**
Junior Engineering Staff & Tester   *Australia (Remotely)*
- Qixalite is a community project in which it provides server hosting service for general gaming and other purposes including tournament hosting and upcoming lobby system. ([Qixalite](#))
- Volunteered as engineering staff, I've helped in development of the back-end side of the system, which includes:
    o Monitoring of server service with watchers to detect anomalies such as orphaned and long-running resources
    o Installation and testing of server plugins for community needs and ease of server operations
- Other than development of services, I've also help contributed to map development for community use, noticiblely a training map. ([Github - Training Map](#))
- Infrastructure and Language used includes: NodeJS, Cloudflare, Kubernetes, MongoDB etc.

Treasure Pot Restraurant   **January 2020 – Febuary 2020**
Multipurpose Staff   *Ipoh, Perak*
- Position icludes: Waiter, Kitcher Staff, Cashier, and Food Prep etc.
- Responsible in clean-up operations, supply cataloging and restocking, and also preparation of meal-set.

EDUCATION

University Tunku Abdul Rahman   **October, 2022**
Degree, CS   *Ipoh, Perak*
- Bachelor of Computer Science (HONS), CGPA: 3.5713
- Relevant Coursework
    o Internetworking, Database systems, Object oriented programming concepts, Software engineering principles, Server-side web development, Computer securities etc.
- Participated as member of the E-sports Society as community moderator for 1 year.
